

Адва

AD14

**Waterproof pH-ORP-TEMP
Pocket Testers
with replaceable electrode**

AD14 is the most advanced microprocessor based Waterproof pH/ORP/Temp pocket testers on the market. Fast, stable and precise, this tester is for users that require the greatest accuracy. Simple user-replaceable pH/ORP/Temp probe: just unscrew the plastic ring on the top of the electrode and replace it with a new one!

		AD14
Range	pH ORP Temp	-2.00 to 16.00 pH ± 1000 mV -5.0 to 60.0°C / 23.0 to 140.0°F
Resolution	pH ORP Temp	± 0.01 pH 1 mV 0.1°C / 0.1°F
Accuracy	pH ORP Temp	± 0.01 pH ± 2 mV ± 0.5 °C / ± 1 °F
Typical EMC Deviation	pH ORP Temp	± 0.02 pH ± 2 mV ±0.3°C / ±0.6°F
Calibration		automatic, 1 or 2 points with 2 sets of memorized buffers (pH 4.01, 7.01, 10.01 or 4.01, 6.86, 9.18)
Temp. Compensation		automatic from -5 to 60°C
ORP Calibration		factory calibrated
Environment		0 to 50°C max RH 100%
Battery Type		4 x 1,5V (included)
Battery Life		approx. 300 hours of use
Auto shut-off		yes
